OCTOBER 2000 VOLUME 148 NUMBER 1

Contents

FORUM

Commentary

Mosses and alternative adaptation to life on land • Measuring the influence of mycorrhizas 1

Meetings

Development and good breeding in legume models: poise and peas? 7

REVIEW

Tansley Reviews Nos. 117 and 118

Carbon economy in lichens
K. Palmqvist 11

Post-ingestion metabolism of fresh forage
A. H. Kingston-Smith and M. K. Theodorou 37

Books

Microtechnique • Toxic plants 57

RESEARCH

Water relations and carbon gain are closely related to cushion size in the moss *Grimmia pulvinata*
G. Zotz, A. Schweikert, W. Jetz and H. Westerman ■ **Commentary p. 1** ■ 59

Flavonoids accumulate in leaves and glandular trichomes of *Phillyrea latifolia* exposed to excess solar radiation
M. Tattini, E. Gravano, P. Pinelli, N. Mulinacci and A. Romani 69

Low leaf-level response to light and nutrients in Mediterranean evergreen oaks: a conservative resource-use strategy?
F. Valladares, E. Martinez-Ferri, L. Balaguer, E. Perez-Corona and E. Manrique 79

Flooding tolerance of *Carex* species in relation to field distribution and aerenchyma formation
E. J. W. Visser, G. M. Bögemann, H. M. Van de Steeg, R. Pierik and C. W. P. M. Blom 93

Experimental evidence for a persistent spore bank in *Sphagnum*
S. Sundberg and H. Rydin ■ **Commentary p. 1** ■ 105

A fossil fern indicator of epiphytism in a Tertiary flora
I. Poole and C. N. Page 117

Seed weight and seed number affect subsequent fitness in outcrossing and selfing *Primula* species
M. A. Tremayne and A. J. Richards 127

Influence of resource unit distribution and quality on the activity of soil fungi in a particulate medium
G. S. Griffith and R. D. Bardgett 143

Genetic diversity of root-associated fungal endophytes from *Calluna vulgaris* at contrasting field sites
J. M. Sharples, S. M. Chambers, A. A. Meharg and J. W. G. Cairney 153

Component growth efficiencies of mycorrhizal and nonmycorrhizal plants
R. T. Koide, M. D. Goff and I. A. Dickie ■ **Commentary p. 5** ■ 163

Cryopresentation of entrapped monoxenically produced spores of an arbuscular mycorrhizal fungus
S. Declerck and M. G. Angelo-Van Coppenolle 169

Glomus intraradices causes differential changes in amino acid and starch concentrations of *in vitro* strawberry subjected to water stress
C. Hernández-Sebastià, G. Samson, P.-Y. Bernier, Y. Piche and Y. Desjardins 177

NOVEMBER 2000 VOLUME 148 NUMBER 2

Contents

FORUM

Commentary

Water transport at the extreme – restoring the hydraulic system in a resurrection plant • Why do basic research? A lesson from commercial exploitation of miscanthus 187

REVIEW

Tansley Review No. 119

Theoretical considerations of optimal conduit length for water transport in vascular plants
J. P. Comstock and J. S. Sperry 195

Books

Plants and Salt 219

RESEARCH

Water rise kinetics in refilling xylem after desiccation in a resurrection plant
H. Schneider, N. Wistuba, H.-J. Wagner, F. Thürmer and U. Zimmermann ■ Commentary p. 187 ■ 221

Xylem conduits of a resurrection plant contain a unique lipid lining and refill following a distinct pattern after desiccation
H.-J. Wagner, H. Schneider, S. Mimietz, N. Wistuba, M. Rokitta, G. Krohne, A. Haase and U. Zimmermann ■ Commentary p. 187 ■ 239

The base of the leaf acts as a localized sink for photosynthate in mature barley leaves
N. U. Shaikh, W. P. Quick and S. A. Rolfe 257

Metabolism-induced free radical activity does not contribute significantly to loss of viability in moist-stored recalcitrant seeds of contrasting species
V. Greggains, W. E. Finch-Savage, W. P. Quick and N. M. Atherton 267

Quantitative genetic analysis of seed vigour and pre-emergence seedling growth traits in *Brassica oleracea*
M. Bettey, W. E. Finch-Savage, G. J. King and J. R. Lynn 277

Overwintering problems of newly established *Miscanthus* plantations can be overcome by identifying genotypes with improved rhizome cold tolerance
J. C. Clifton-Brown and I. Lewandowski ■ Commentary p. 190 ■ 287

Why are annual plants rarely spring ephemerals?
M. F. McKenna and G. Houle 295

Morph-specific patterns of variation in stigma height in natural populations of distylous *Jasminum fruticans*
J. D. Thompson and B. Dommée 303

Pollen from Lake Sedmo Rilsko reveals southeast European postglacial vegetation in the highest mountain area of the Balkans
E. D. Bozilova and S. B. Tonkov 315

A lectin from the lichenized Basidiomycete *Dictyonema glabratum*
S. L. Elifio, M. De Lourdes, C. C. Da Silva, M. Iacomini and P. A. J. Gorin 327

In vitro germination of nonphotosynthetic, myco-heterotrophic plants stimulated by fungi isolated from the adult plants
T. D. Bruns and D. J. Read 335

Arbuscular mycorrhizal fungi might alleviate aluminium toxicity in banana plants
G. Rufyikiri, S. Declerck, J. E. Dufey and B. Delvaux 343

DECEMBER 2000 VOLUME 148 NUMBER 3

Contents

FORUM

Commentary

Root structure and function in an ecological context 353

Referees 355

REVIEW

Tansley Review No. 120

Pathways to abscisic acid-regulated gene expression
C. D. Rock 357

RESEARCH

Sexual development and sex chromosomes in hop
H. L. Shephard, J. S. Parker, P. Darby and C. C. Ainsworth 397

Mobilization of fructan reserves and changes in enzyme activities in wheat stems correlate with water stress during kernel filling
I. F. Wardlaw and J. Willenbrink 413

Adaptations to extreme low light in the fern *Trichomanes speciosum*
G. N. Johnson, F. J. Rumsey, A. D. Headley and E. Sheffield 423

Modelling the germination of *Stellaria media* using the concept of hydrothermal time
A. C. Grundy, K. Phelps, R. J. Reader and S. Burston 433

Modelling field emergence patterns in arable weeds
L. M. Vleeshouwers and M. J. Kropff 445

Root tissue structure is linked to ecological strategies of grasses
S. Wahl and P. Ryser ■ **Commentary p. 353** ■ 459

Retention and mobility of atmospheric particle-associated organic pollutant PCDD/Fs and PAHs in maize leaves
H. Kaupp, M. Blumenstock and M. S. McLachlan 473

Pseudothecia of Swiss needle cast fungus, *Phaeocryptopus gaeumannii*, physically block stomata of Douglas fir, reducing CO_2 assimilation
D. K. Manter, B. J. Bond, K. L. Kavanagh, P. H. Rosso and G. M. Filip 481

Litter nutrients and retranslocation in a central African rain forest dominated by ectomycorrhizal trees
G. B. Chuyong, D. M. Newbery and N. C. Songwe 493

Extraradical hyphae of the mycorrhizal fungus *Glomus intraradices* can hydrolyse organic phosphate
R. T. Koide and Z. Kabir 511
